

Data Center Info Sheet

Tomorrows Density Today

Cedar Knolls I

Parsippany I

Parsippany II

200 Webro Road - Parsippany, NJ

Location

The Parsippany II data center is in a quiet office park in Parsippany NJ. Parsippany is roughly 40 minutes from Manhattan and 30 minutes from Newark Liberty International Airport. The data center itself is conveniently located near Routes 24, 46, 80 & 287 making it easily accessible by car and bus. Facility amenities include: office suites, conference / break room facilities, server build rooms, and long-term storage.

Power Density

With the ability to accommodate power densities of **20 kW (167 amps @ 120v)** per cabinet, Parsippany II is the highest density facility in the region. This ultra-high density allows customers to expand their environment without having to expand their footprint. Most importantly unlike typical data centers with a density ceiling of 4 kW (34 amps @ 120v) per cabinet at Net Access you can fully utilize your cabinet.

Power Systems

2 (N+1) power systems comprised of Eaton-PowerWare UPS systems with individual battery validation systems backed by diesel generation. The power system is capable of delivering single pole (120v), double pole (208v), and triple pole or three-phase configurations. The facility offers both flat-rate and metered power billing options.

Cooling Systems

The data center utilizes cabinets with sealed backs and heat chimneys to remove the hot air without contaminating the cool ambient air in the facility. Low velocity, high CFM ambient air cooling is provided via the latest green technology with an estimated PUE of 1.2.

Security Systems

- Biometric authentication to all secure areas / doors
 - Fingerprint Reader
 - Facial Geometry Scanner
- Three-Factor (Proximity card / biometric fingerprint reader / facial geometry scanner) man-trap authentication & anti-passback
- Two-Factor (Proximity card / biometric fingerprint reader) access to cages
- 24 / 7 / 365 on-site security
- High Definition CCTV network covering all interior and exterior strategic locations and access points
 - 90 days video retention

Connectivity

- Net Access Corporation
- Extended Cross-Connect
 - 60 Hudson St. - TelX - NYC
 - 25 Broadway - Telehouse - NYC
 - 165 Halsey St. - Equinix - Newark, NJ
- Major On-Net Carriers
 - Verizon Telco
 - Verizon Business (former MCI / UUnet)
 - AboveNet
 - Optimum Lightpath

Tier

The Parsippany II data center meets or exceeds the specifications of a Tier 4 data center as defined by The Uptime Institute

SAS-70 Audit

Parsippany II will be included in our regular SAS-70 Type II audit.
